ABOUT US

ITSFIT LAB is a custom in-ear brand (CIEMs) that was originally a small lab specialized in sound & audio components research in Vietnam. Joining the global trend of custom in-ear headphones, Itsfit Lab utilizes only the best optimized sound technology, combined with our highly-skilled engineers' experience and our dedication to Vietnamese handcraft to brings you a pair of ultimate audio fidelity, tailored fit and bespoke designs custom in-ear monitors.

ITSFIT Custom In-ear monitors are outstanding in many aspects. They give you the best fit, soundproof and comfort thanks to precisely shaped acrylic shells that hug your ear curves perfectly. High-end drivers also make no sense without great tuning. Our CIEMs go through precise tuning and exclusive acoustic treatment by our audio engineers to ensure a distinct sound quality.

Custom headphones are not only technological products, they are also a work of art. Our shells can be hand-crafted according to your own ideas or our original design intentions, creating pairs of headphones with bespoke, breath-taking design.

Here is a collection of designs that have been selected for many years of our research and development in materials

ADVANCED DESIGN

Let us embark on different material design techniques. From aluminum to crystal, from wood to carbon fiber, we have any and every kinds of material design in the market.

ITSFIT LAB

SILVER MESH DESIGN

DESIGN + 50\$
The coinage metals of the ancient world.

SILVER- A1
Silver coinage metal

GOLD- A2
Gold coinage metal

BRUSHED ALUMINIUM DESIGN

DESIGN + 50\$
A unidirectional satin finish with metallic lustre

SILVER- A3
Silver brushed aluminium

PINK- A4
Pink brushed aluminium

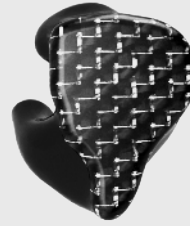

CARBON FIBER DESIGN

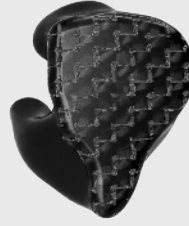

DESIGN + 50\$
One thing immediately stands out - a futuristic design

GOLD- A5
Gold carbon fiber

SILVER- A6
Silver carbon fiber

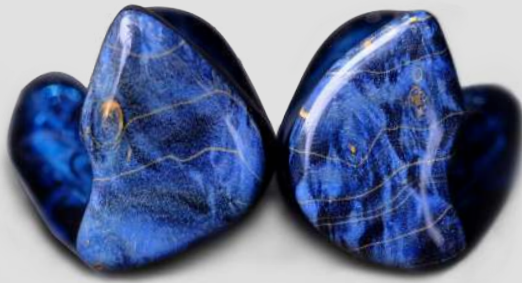

BLACK- A7
Black carbon fiber

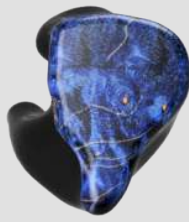

RED- A8
Red carbon fiber

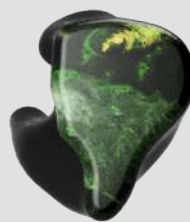

WOOD DESIGN

DESIGN + 50\$
State-of-the-art resin stabilization create the perfect material for wood design

BLUE- A9
Blue wood

GREEN- A10
Green wood

RED- A11
Red wood

BROWN- A12
Brown wood

SWIRL
DESIGN

DESIGN + 50\$

It's a cruel and random world dominated by chaos

GLITTER SOLID
DESIGN

DESIGN + 50\$

Striae give solid design a dazzle feeling

CRYSTALS
DESIGN

DESIGN + 50\$

It's not just about IEM, it's a jewelry!

SILVER - A 13
Silver swirl

GOLD - A 14
Gold swirl

MITARY - A 15
Swirl green and gold

BLUE - A 16
Blue swirl

RED - A 17
Red swirl

WHITE - A 18
White glitter solid

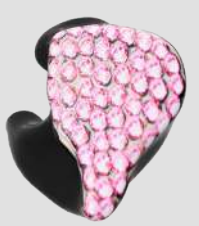

GOLD - A 19
Gold glitter solid

RED - A 20
Red glitter solid

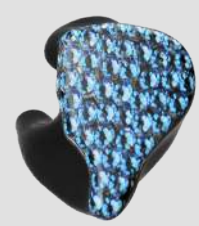

BLUE - A 21
Blue glitter solid

ROSE - A 22
Rose color crystals

JET - A 23
Jet color crystals

AQUAMARINE - A 24
Aquamarine color crystals

CRYSTAL - A 25
crystal color

PREMIUM
DESIGN

Much more sophisticated hand-crafting techniques and materials take design to the next level.

ITSFIT LAB

MOTHER OF PEARL
DESIGN

DESIGN + 100\$

Whole layer of nacre below the surface interferes constructively and destructively with light at different viewing angles, creating iridescent shine

ONE PIECE - P1

TRIANGLE PIECES - P2

CRACK - P3

WOOD COLORFUL
DESIGN

DESIGN + 70\$

When colored resin penetrates wood, it results in unique coloring, artistically highlighting splendid natural grain figures. A multi-color dyed wood boost the effect to the next level

PINK AND VIOLET-P4

LIME AND BLUE-P5

GREEN AND RED-P6

Please note that this designer is to give you an idea of what your product will look like. Because our engineers hand-mix all our colors and use natural materials, individual results may vary.

STORY OF

MOTHER OF PEARL

DESIGN

You are probably familiar with the word "raden" from Japanese. This is actually a traditional technique found in China, Japan and Vietnam as well. Our 3.444-km coastline is a rich source for nacre.

The ancient Vietnamese artisans used raden mosaic in almost every aspect of life: home furnitures, jeweleries, weapons... These mosaic's content ranging from righteous plant, ancient heavenly animals, to famous legends.

Itsfit is proud to re-produce this traditional technique in our masterpiece - One way to appreciate and pay respect to our ancestors.

STORY OF

MARMAROS

DESIGN

At the place where boiling magma passing through limestone, or where tectonic plates collide, mankind found the most famous material for ancient sculpture and building: marble. The ancient Greek called them "marmaros", meaning crystalline rock, shining stone.

With an unique natural structure, marble allows light to penetrate several millimeters into the stone before being scattered out, resulting in the lifelike luster to marble sculptures of any kind.

This characteristic made marble an inspiration and material for the most famous masterpieces of the world: Taj Mahal of Agra, Pietà by Michelangelo...

Itsfit is honor to place the Marmros design in our Heritage line. The refined swirls and veins which resemble real marble rock are laser-engraved manually by our designer. It takes hours of tedious work and no masterpiece is the same!

DESIGN + 120\$

Beauty and everlasting is the message conveyed in the anicent rock.

STORY OF
W O N D E R L A N D
D E S I G N

In Japanese, "koi" is a homophone for another word that means "affection" or "love", so koi fishes are symbols of love and friendship.

It is inherent in a koi's nature to swim upstream. Legend has it that any koi having the strength and perseverance to journey up Dragon's Gate will become a heavenly dragon. They show great determination, dedication and success.

And in case you are wondering, the faceplate is not a print, that is a genuine 3D depth and a real carving of koi fishes. The coral and the water current effect is a massive technical and creative challenge.

The shell complementary colors provide beautiful depth and an aquatic like experience. This is a holistical design showing how committed we are to our customer satisfaction.

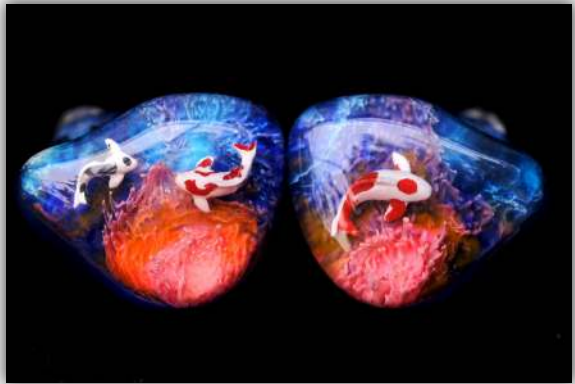

D E S I G N **+ 200\$**
Who can resist the deep relaxation from watching Koi fish swimming?

STORY OF
MULTIVERSE
DESIGN

"We see a universe marvelously arranged, obeying certain laws, but we understand the laws only dimly. Our limited minds cannot grasp the mysterious force that sways the constellations." - Albert Einstein.

From a tiny particle to the large world around us, we observe similarity. The rotation of an electron around a nuclear, the rotation of the earth around the sun, the rotation of stars around the galaxy, and the rotation of galaxies around the universe, they are the same in essentials while differing in minor points.

Do our physical reality consists of more than just one universe? Are there alternate timelines, alternate dimensions, quantum realities? If we are composed of molecules, what kinds of being composed of the stars, and what kinds of being composed of quarks? If we are living in a bigger multiverse, will there be a "designer" of all, a God, a Creator?

That is probably the biggest mystery of mankind. That is the message in our multiverse masterpiece.

DESIGN + 120\$

Mysterious and wonderful, nothing can give you more questions than the multiverse. .

THANK YOU

All of our in-ear monitors are proudly handcrafted in Hanoi, Vietnam. Our artisans work on various types of materials and complex designs and know exactly what hands can do that cutting edge technologies cannot.

The craftsmanship value doesn't lie only in shell designs. Our technicians also do it manually all the way from structuring every products's electrical component net to acoustic tuning to make sure that overall cohesion and quality are thoroughly checked. We focus on every tiny details and never do mass production.
